STRATEGIES

The company has devised a plan to expand its footprint in the Logistics industry, focusing on activities that will support the core business and customer needs. Their abundance of resources, information, experience and good relationships with customers is helping to expand the business. The expansion also allows the company to reduce its dependence on one major service. The following strategies have been applied:

1. Provide comprehensive logistics services:

The Company is focused on responding to customer needs by listening to problems, to which the Company then develops and provides solutions that will delight the end customer. In order to impress customers Along with the continuous improvement of service quality and expertise in providing services Equipment that meets international standards and the company has also certified various service standards, including ISO 9001, ISO 14001 and Global Security Verification Report, in order to increase confidence for customers using the service through the United Thai Port and every service.

2. Terminal Location:

Location is one of the keys to success in logistics services. Sahathai Terminal has the strategic advantage of being connected to several major roads, making it a convenient transportation hub, makes it easy to move By the port location of the Company and its subsidiaries Join the repair and wash yard location on behalf of the subsidiary. Located on Pu Chao Saming Phrai Road Connected to Kanchanaphisek Road Makes shipping containers or products to reach the destination easily.

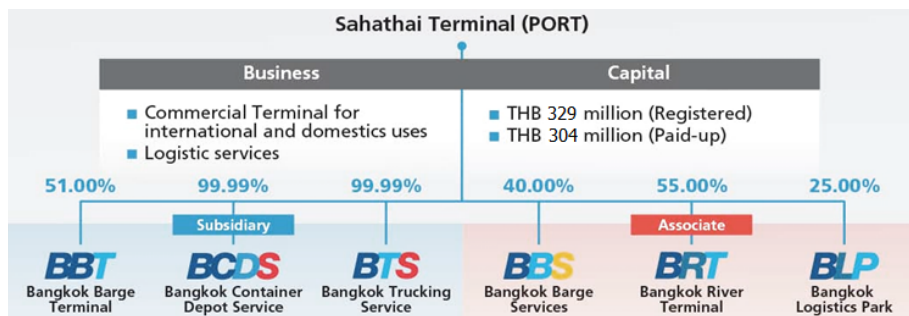

3. Organic customer relations:

The Company has a strong customer relations team. They also promote their corporate core values of service mindfulness, paying attention to customer requirements and trying to help reduce costs and improving operations for customers. Their aim is to grow stronger together with their customers.
